

May 14, 2018

Dear IBEW 1007,

The Grade 6 students went to Birch Bay Ranch for an overnight camping trip on May 2 and 3. At Birch Bay, students were able to go horseback riding, try out an aerial obstacle course, experience two zip lines, try archery, go on a horse pulled hay ride, and have a campfire with songs and snacks. They were able to enjoy the natural setting away from the city and enjoy spending less structured time with their friends.

For many of these students it was a first time for most of these experiences. This is also the first time away from their families for an overnight trip. A lot of the students are nervous before they go on this trip, but by the time it is done, they say it is the best field trip they have ever been on! Every year, they always ask if they can go again and I have former students (now in Junior High) that also ask if they can come back to go on the trip again. To say the least it is a major highlight for their elementary experience.

On behalf of the whole school and staff, I want to say a heartfelt thank you for your contribution and support. With your generosity, our students were able to make memories with their friends and experience activities that they would otherwise not have the opportunity to do so.

Sincerely,

Daniel Sdao
